Summary

Software engineer with a bachelor's degree from Jordan University of Science and Technology, passionate about web development, especially HTML, CSS, and JS, with a solid foundation in software engineering principles. I have experience developing responsive user interfaces, as well as programming the server-side code to support them. My passion for this field grew through completing a comprehensive course in web development. Additionally, I specialized in UI/UX design a year and a half ago, which enhanced my understanding of user needs and improved the experience of interacting with applications.

Skills

Technical Skills:

- HTML
- CSS
- Java script
- Bootstrap
- UI/UX Design
- Wireframing
- Mobile App Design
- Website Design
- Prototyping

Soft Skills:

- Communication
- Adaptability
- Stress management
- Creativity
- Attention to detail
- Teamwork
- Passionate
- Problem solving
- Critical thinking

Tools:

- Figma
- Adobe Xd
- VS Code
- Git
- GitHub

Education

Jordan university of science and technology
Bachelor's degree in software engineering

GPA - 2.60

Experience

Front-End Web Developer: **4 Jan 2024 – 17 Aug 2024**
I designed and developed front-end websites using HTML, CSS and JavaScript, and created secure login, registration and homepages.
I consulted with a client to gather requirements, and provided 100% customized solutions that boosted project success rates.

5- Month Freelance – UI/UX Design **26 Sep 2024 – 20 Feb 2025**
BuildNa App:
Collaborated with the Innovation Center at JUST to design the **BuildNa** app, Buildna is a solution designed specifically for modern needs. It focuses on simplifying processes for users in the construction industries. The application provides a platform where users can connect with craftsmen, suppliers and experts to manage and implement their construction projects efficiently. From sourcing materials to managing logistics, Buildna offers a comprehensive solution to all the problems you face at home or anywhere.

Etma'an: **10 Jan 2025 – 16 Feb 2025**
Etma'an is an application that helps psychiatric patients with online treatment. The patient seeks to choose the doctor and the right time for them. Communication is done through chat, call or video call with complete confidentiality and high control. The doctor is given the full treatment in the right way for the patient. If the patient needs a prescription, it will be delivered to him on his account in the application.
